IT'S MAGIC

Every Parent Should Know One Amazing Trick to Really Wow Their Kid

Here's an easy one—the linking paper clips—courtesy of cool dad and magician Joe Branch.

1 All you need: a dollar bill and two paper clips.

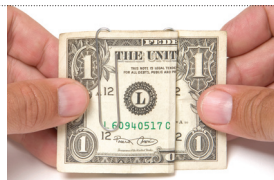

2 Fold bill into thirds.

3 Use a paper clip to secure outer flap.

4 Turn the bill around and use the other paper clip to secure just the two front folds.

5 Firmly grip both ends, mid-bill, and pull them apart slowly at first. When the clips are practically on top of each other, give a sharp tug.

6 When the bill is opened, the paper clips will fly off and link. Awesome!

Joe says: Practice a bunch of times before you show off.
